HAWAII

Kauai County

Hanalei	07	0400HST 1330HST			0	0			Urban/Sml Stream Fld
----------------	-----------	----------------------------	--	--	----------	----------	--	--	-----------------------------

Heavy rains caused widespread flooding of the Hanalei Valley and the closing of the Hanalei River Bridge. 9 inches of rain fell at Hanalei in a 12 hour period.

Honolulu County

Haleiwa To Kahuku	07	1515HST 1830HST			0	0			Urban/Sml Stream Fld
--------------------------	-----------	----------------------------	--	--	----------	----------	--	--	-----------------------------

Heavy rains over central Oahu and north Oahu from Haleiwa to Kahuku caused minor street flooding. A weather spotter in Kahuku reported 1.2 inches of rain in a 30 minute period during the late afternoon hours.

Hawaii County

Waikoloa, S Kohala	08 09	2100HST 0200HST			0	0	1M		Flash Flood
---------------------------	------------------	----------------------------	--	--	----------	----------	-----------	--	--------------------

Warm topped convection associated with an upper trough was anchored over the higher slopes of the South Kohala District. Heavy rainfall occurred in a 3 to 5 mile radius upslope of Highway 190 between Waikoloa Road and Waimea Town. Flood waters closed parts of Highway 190 with 3 to 4 feet of water. The flood waters were then carried by a gulch into Waikoloa Village where flooding occurred in condominiums adjacent to a golf course. Water and mud up to 3 feet deep damaged the lower units of two condominiums, causing \$1 million in damages to 36 units.
